

LOWER CAPE FEAR WATER AND SEWER AUTHORITY

Number of members: 14 - 2 appointed by New Hanover County Commissioners

Term: three years

Regular Meetings: Second Monday of each month

Statute or cause creating Authority: General Statutes 161A

Brief on Functions: The purpose of the Authority is to provide 45 million gallons a day of raw water to the Authority's Membership which includes the City of Wilmington, Bladen, Columbus, Brunswick, New Hanover and Pender Counties. The Authority functions as a water utility in providing the sale of raw water to any member government of the Authority that requests such service. The Authority can sell water directly to industries in the region upon request. The Authority initially provided water service to Brunswick County. As of April 1991, the Authority is expanding its pipeline to provide water service to Cape Industries on US Highway 421, in New Hanover County and future water supplies to Takeda Chemical Products, USA and the City of Wilmington. In general, the Authority operates under the same powers and guidelines as do cities and counties.
