

## NOTES

I altered the order of the agenda a little. Joyce Guerra was introduced as the representative from the U.S. Coast Guard. Joyce gave a brief synopsis of the U.S. Coast Guard Prep Exercise. At the conclusion, one question was asked by John Mason of WFD to Elizabeth Bailey of Invista as to what the location of the spill would be in the exercise. No further questions.

The following new people introduced themselves:

Brian Bellamy –GE  
Danny Grafius-WFD  
Hugh Byrd-CCI Environmental  
Ray Layne-Occupational Compliance  
Elizabeth Bailey-INVISTA  
Kevin Madsen-NHC Health Dept.  
Rachel Garnett-PHRST 2  
MSG John Letuli-US Army  
Don Cooke-Progress Energy

No one had any company news to discuss.

I did mention to the committee, for them to ponder over, if anyone would like to volunteer to host meetings at their facilities. I suggested if they were interested to get in contact with Lisa. Dominic Bianco suggested GE for the June meeting. His boss is out right now on medical leave, but he will be talking with him to get this cleared and he will contact Lisa to let her know.

Announced the next meeting would be on April 9th. If no one doesn't volunteer to be a host facility for April, we can just schedule it at the EOC.

Thanks to aaiPharma for sponsoring lunch.

Meeting adjourned @ approx. 1:00PM.
