Re: Public Meeting/Trails End Water Access

(New Hanover County)— The New Hanover County Parks Department will host a public meeting at 6:00 pm, Thursday, February 26 to present the plan for improvements to the Trail's End Public Water Access Area. The public meeting will be held at the New Hanover County Government Center, Human Resources Training Room.

Representatives from the North Carolina Wildlife Resources Commission will also be present to discuss the plan and the timeline for completing the project.

New Hanover County purchased 3 parcels of land located at the end of Trails End Road for development of a boating ramp and other amenities. The land purchase was made possible through the \$35.5 million parks bond referendum approved by voters in 2006.

The public is invited to attend and contribute their input to the plan.
