

ADDENDA # 2

From: Lena L. Butler, Purchasing Supervisor
To: Designers
Project: RFQ-SKATEPARK DESIGN
Date: November 6, 2014

This addendum is issued in response to a previous question regarding “RFQ-SKATEPARK DESIGN” and is hereby made a part of said Request for Qualifications to the same extent as though it were originally therein.

The following question was received by the County regarding the Skatepark Design:

It is typical in the skate park industry that one company can provide both the specialty design and construction of a skate park facility. Will the selected designer be prevented from competitively bidding on the construction portion of the skate park?

In Addendum # 1, the County’s initial response to the question was:

We believe that the selected designer would have a real or apparent unfair competitive advantage; therefore, the selected designer will not be able to competitively bid the construction portion of the skatepark.

After further research and consideration, the County has determined:

As stated in the original question, it is typical for one company to provide both the specialty design and construction; therefore, the selected designer will not be prohibited from competitively bidding on the construction portion of the skatepark. Please note that we are only soliciting qualifications for a designer at this time. The successful designer will be allowed to bid on the construction of the skatepark; however, there is no guarantee that the same firm or person will be awarded the construction bid.
