- 1) Will an annual CPI adjustment be allowed after the first year of the contract and subsequent years of contract? No CPI – the rate will be open to re-negotiation at the end of the initial 5-year term.
- 2) Will a fuel surcharge be permitted in addition to standard price per ton? The bidder will have the option to submit an alternate per-unit price based on a fuel surcharge using the US DOE formula for On-Highway Diesel – All Types for the Lower Atlantic (PADD 1C) area.
- 3) After the first 5 year term, can the contract terms be renegotiated? Yes, the terms and conditions can be re-negotiated for the one (1) optional five-year extension, with any changes being mutually agreed upon.
